Different Versions of 3D printed face mask

rev3.4. In testing phase

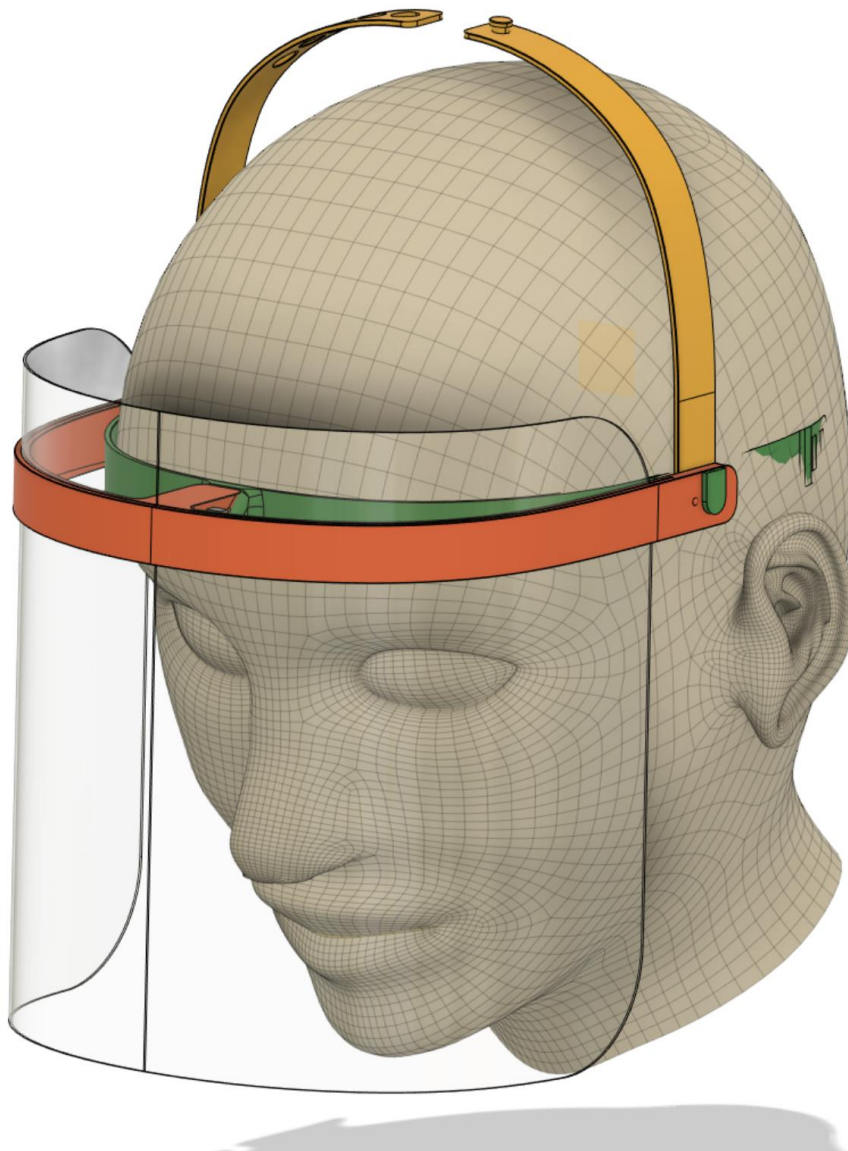

rev3.5 changes:

1. Increased distance to face
2. 2° inclination of the sheet
3. Stronger fixation for strap
4. Small adjustments for the upper printed strap
5. Adjusted total dimensions for smaller printers <190x190mm
6. Slot enlarged for horizontal A4 installation

rev3.5.1 changes:

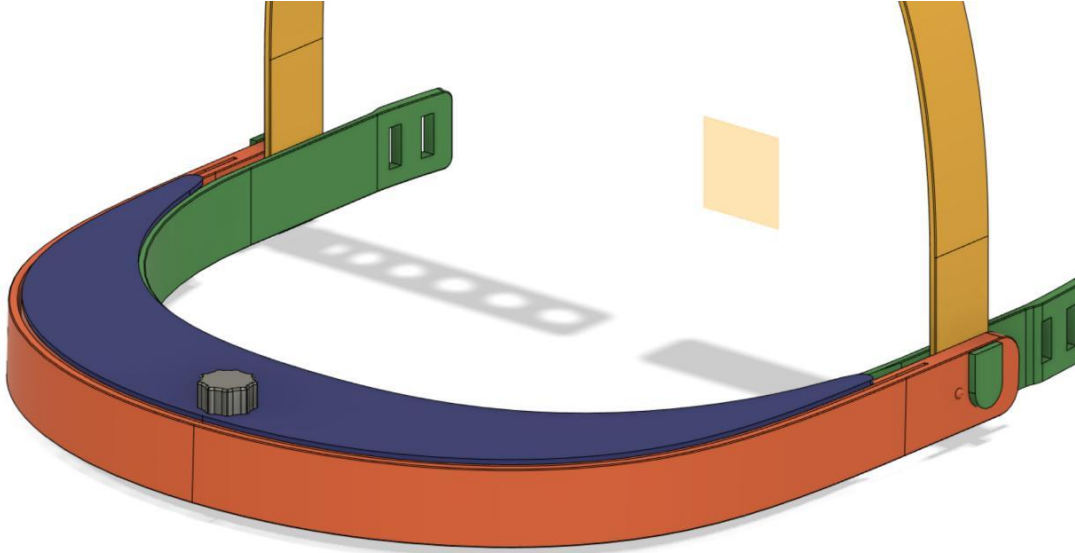

1. improved slot system top strap
2. added M3 screw and nut for A4 sheet fixation

rev3.5.1b (optional change)

1. Shorter version, may be possible to fit 2 on 235x235 bed like ender 3.

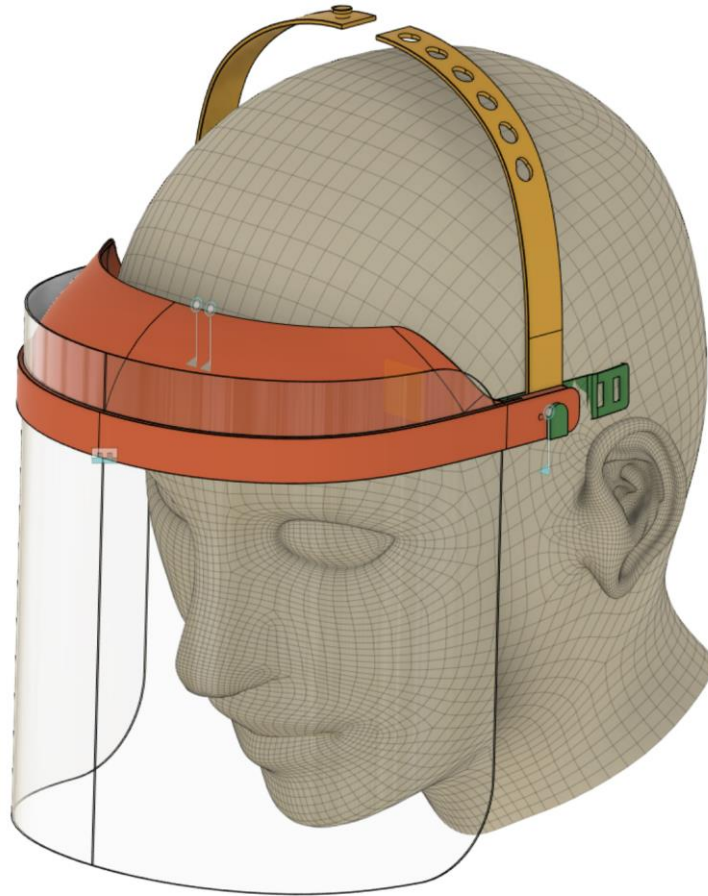

rev3.5.2 changes: (DO NOT PRINT LID AND SCREW – BAD LID DESIGN)

1. 3.5.1 shorter version worked fine, so all will be fine from now on
2. removed M3 and nut, didnt work
3. Added lid to close the mask on the top
4. 2 new files: lid and screw
5. Improved top strap

rev 3.6 changes:

1. Changed lid design, only 1 file. No assembly needed.

rev 3.6b changes:

1. alternative fix closing lid like rev3.4 closed.
